

PRIVACY POLICY

Introduction

Medaculous values your privacy.

This Privacy Policy explains how we collect, use, disclose, and safeguard your information when you use our Services.

This Privacy Policy explains how Medaculous ("Medaculous," "we," "us," or "our") collects, uses, stores, discloses, and protects information when you use the Medaculous website, mobile application, software, artificial-intelligence features, clinical reference tools, educational services, subscription services, and related products (collectively, the "Services").

This Privacy Policy applies to information collected through the Services and, where expressly stated, through related communications with Medaculous.

By creating an account or using the Services, you acknowledge that you have read this Privacy Policy.

Where applicable law requires consent to a particular processing activity, we will obtain that consent separately.

1. IMPORTANT INFORMATION FOR MEDICAL APP USERS

Medaculous is designed for medical education, clinical reference, and clinical decision-support purposes.

Because Medaculous may process information relating to health, symptoms, medications, clinical cases, medical education, and other healthcare-related subjects, some information processed through the Services may be considered sensitive or health information under applicable laws.

You should not enter identifiable patient information into Medaculous unless you have the legal authority and appropriate authorization to do so and the use complies with applicable law and your organization's policies.

Where possible, users should de-identify patient information before submitting it.

Examples of information that should generally be removed include:

- Patient name;
- Address;
- Telephone number;
- Email address;

- National identification number;
- Medical record number;
- Insurance number;
- Exact date of birth;
- Facial photographs;
- Identifiable medical documents;
- Other information that could reasonably identify a patient.

You are responsible for determining whether you are legally permitted to upload or process patient information through Medaculous.

2. WHO IS RESPONSIBLE FOR YOUR INFORMATION?

The entity responsible for processing your information is:

Legal Entity: Medaculous

Country: Pakistan

General Support: talk2saadalam@gmail.com

If Medaculous operates through different legal entities in different jurisdictions, the applicable entity may vary depending on your location and the Service you use.

3. INFORMATION WE COLLECT

We collect information in several categories.

3.1 Information You Provide Directly

When you create an account, we may collect:

- Name;
- Email address;
- Password or authentication credentials;
- Country or region;
- Professional category;
- Medical specialty;
- Educational level;
- Institution or organization, where provided;

- Subscription information;
- Communication preferences.

You may choose to provide additional information in your profile.

You should only provide information that is necessary or appropriate for the feature you are using.

4. USER-GENERATED CONTENT

Medaculous may allow you to create, upload, save, or process content.

This may include:

- Notes;
- Clinical notes;
- Study notes;
- Flashcards;
- Questions;
- AI prompts;
- AI conversations;
- Uploaded PDFs;
- Images;
- Documents;
- Educational materials;
- Case information;
- OSCE practice information;
- Exam-planning information;
- Ward Companion information;
- Other content you voluntarily provide.

We refer to this collectively as "**User Content.**"

5. HEALTH AND MEDICAL INFORMATION

Depending on how you use Medaculous, User Content may contain health-related information.

Examples may include:

- Symptoms;
- Diagnoses;
- Medical history;
- Medications;
- Allergies;
- Laboratory results;
- Imaging information;
- Clinical observations;
- Treatment information;
- Clinical case descriptions;
- Patient-related notes.

Health information can be particularly sensitive.

We therefore encourage users to minimize the amount of identifiable health information submitted to the Services.

6. PATIENT INFORMATION

Medaculous is not intended to encourage users to upload identifiable patient information unnecessarily.

If you use Medaculous in a clinical environment, you are responsible for ensuring that your use complies with:

- Applicable privacy laws;
- Healthcare confidentiality requirements;
- Professional obligations;
- Institutional policies;
- Patient-consent requirements;
- Contractual obligations.

If you upload patient information, you represent that you have the legal authority and appropriate permissions required to do so.

Medaculous does not assume that every user is authorized to upload patient information merely because the user identifies as a healthcare professional.

7. INFORMATION COLLECTED AUTOMATICALLY

When you access the Services, we may automatically collect technical and usage information.

This may include:

- IP address;
- Device type;
- Operating system;
- Browser type;
- Application version;
- Device identifiers;
- Language;
- Time zone;
- Approximate location derived from IP address;
- Login times;
- Session information;
- Feature usage;
- Crash information;
- Error logs;
- Performance information;
- Network information.

We use this information for purposes including:

- Security;
- Authentication;
- Troubleshooting;
- Fraud prevention;
- Performance monitoring;
- Product improvement;
- Analytics;
- Service administration.

8. LOCATION INFORMATION

Medaculous may receive approximate location information from your IP address or device settings.

Unless expressly disclosed and permission is obtained, Medaculous does not require continuous GPS location tracking.

We may use approximate location information to:

- Determine country or region;
- Provide localized content;
- Apply regional restrictions;
- Detect suspicious login activity;
- Comply with legal requirements;
- Improve service security.

If a future feature requires precise location information, we will request appropriate device permission where required.

9. AI PROMPTS AND AI CONVERSATIONS

Medaculous may provide AI-powered functionality.

When you submit a prompt, question, case description, document, image, or other information to an AI feature, that information may be processed by Medaculous and by third-party technology providers that we use to provide the AI functionality.

Depending on the architecture of the Services, information submitted to AI features may include:

- Your prompt;
- Conversation history;
- Relevant User Content;
- Uploaded documents;
- Images;
- Context required to generate a response;
- Technical information associated with the request.

The applicable AI providers will depend on the technology used by Medaculous at the time.

10. AI DATA USE

We will use AI-related information to provide the AI functionality you request.

We may also process AI interactions for purposes such as:

- Security;
- Abuse prevention;
- Troubleshooting;
- Quality assurance;
- Service improvement;
- Technical monitoring;
- Compliance;
- Customer support.

Where AI interactions are used for product improvement or model-related purposes, the actual processing will depend on the applicable technical configuration and agreements with our AI providers.

We will not claim that AI providers "never train on your data" unless the applicable provider agreement and technical configuration actually support that statement.

Where a feature provides a specific privacy choice concerning AI processing, that choice will be disclosed at the point of use.

11. IMPORTANT WARNING ABOUT AI AND PATIENT DATA

Users should not submit identifiable patient information to AI features unless they are legally authorized to do so and the applicable Medaculous service and organizational arrangements permit such processing.

AI systems may transmit submitted information to infrastructure operated by third-party service providers.

For this reason, users should prefer de-identified clinical cases whenever possible.

12. KNOWLEDGE HUB AND UPLOADED DOCUMENTS

The Knowledge Hub may allow you to upload documents such as:

- Medical PDFs;
- Study materials;

- Guidelines;
- Personal notes;
- Educational documents;
- Other permitted materials.

Uploaded documents may be stored and processed to provide features such as:

- Search;
- Summarization;
- Question answering;
- Classification;
- Extraction;
- AI analysis.

Documents may be processed using automated systems and third-party infrastructure.

You remain responsible for ensuring that you have the legal right to upload a document.

13. NOTES

Medaculous may provide note-taking and information-management functionality.

Notes may be stored on Medaculous infrastructure or on third-party infrastructure used to operate the Services.

Depending on the feature and technical implementation, notes may be:

- Synchronized between devices;
- Backed up;
- Indexed for search;
- Processed by AI;
- Included in user-requested AI functionality.

Do not store confidential information in Notes unless you have verified that the use is permitted under your applicable legal and organizational requirements.

14. WARD COMPANION

Ward Companion may allow users to organize clinical tasks and information.

Information entered into Ward Companion may include health-related information.

Users should minimize identifiable patient information.

Ward Companion should not be treated as the sole or authoritative repository for patient safety information unless Medaculous expressly states that a particular version has been designed and contractually approved for such use.

15. SYMPTOM ANALYSIS

The Symptoms feature may process information concerning:

- Symptoms;
- Age;
- Sex;
- Clinical history;
- Other information supplied by the user.

This information may be considered health information.

We process this information to provide the requested analysis and related functionality.

The output may include possible differential diagnoses and suggested next steps.

The output does not establish a medical diagnosis.

16. MEDICATION INFORMATION

The Services may process information concerning:

- Medicines;
- Symptoms;
- Drug interactions;
- Contraindications;
- Doses;
- Treatment options;
- Therapeutic alternatives.

This information may be processed to provide formulary, drug-information, or AI-assisted functionality.

We do not use a user's medication information for unrelated purposes unless permitted by applicable law and disclosed to the user.

17. EXAM PLANNER AND OSCE PREPARATION

Information entered into Exam Planner and OSCE Preparation may include:

- Examination preferences;
- Study plans;
- Progress;
- Favourites;
- Checklist completion;
- Practice history.

We may use this information to provide and personalize educational features.

18. HOW WE USE PERSONAL INFORMATION

We may use information for the following purposes:

Providing the Services

To:

- Create and manage accounts;
- Authenticate users;
- Provide requested features;
- Process AI requests;
- Store User Content;
- Synchronize information;
- Provide subscriptions;
- Provide customer support.

Security

To:

- Detect unauthorized access;
- Prevent fraud;
- Detect abuse;
- Protect accounts;

- Investigate security incidents;
- Protect the Services.

Product Improvement

To:

- Understand feature usage;
- Diagnose technical problems;
- Improve usability;
- Improve reliability;
- Develop new features;
- Analyze aggregate usage patterns.

Communications

To:

- Send account notifications;
- Send security alerts;
- Respond to support requests;
- Provide service announcements;
- Send legally required communications.

Marketing communications will be handled in accordance with applicable law and your available preferences.

Legal Compliance

To:

- Comply with applicable law;
- Respond to lawful requests;
- Establish or defend legal claims;
- Enforce our agreements;
- Prevent fraud or abuse.

19. LEGAL BASES FOR PROCESSING

Where laws such as the UK GDPR or EU GDPR apply, we may process personal information on one or more of the following legal bases:

- Performance of a contract;
- Compliance with legal obligations;
- Legitimate interests;
- Consent;
- Protection of vital interests, where legally applicable.

Where we rely on consent, you may withdraw consent where legally permitted.

Withdrawal of consent does not necessarily affect processing that occurred before withdrawal.

Where health information constitutes a special category of personal data under applicable law, we will rely on an applicable legal condition for processing such information.

We will not claim that "consent" is the legal basis for every processing activity.

20. PURPOSE LIMITATION

We will use personal information for purposes described in this Privacy Policy or for purposes reasonably compatible with those purposes.

If we intend to use information for a materially different purpose that requires additional notice or consent under applicable law, we will provide that notice or obtain the required consent.

21. DATA MINIMIZATION

We seek to collect and process information reasonably necessary for the purposes described in this Privacy Policy.

We do not require users to provide more information than is reasonably necessary for the relevant feature.

You should also avoid submitting unnecessary sensitive information.

22. DATA SHARING

We may disclose information to selected third parties where reasonably necessary to operate the Services.

These may include:

- Cloud hosting providers;
- Database providers;

- Authentication providers;
- AI providers;
- Analytics providers;
- Error-monitoring providers;
- Customer-support providers;
- Payment processors;
- Email providers;
- Security providers;
- Infrastructure providers;
- Professional advisers;
- Legal advisers;
- Regulators and government authorities where legally required.

We will maintain a current list of material categories of service providers where required by applicable law.

23. THIRD-PARTY AI PROVIDERS

AI functionality may depend upon third-party AI providers.

The relevant provider may process information submitted to the AI feature according to the applicable contractual arrangements and technical configuration.

Before launch, Medaculous should document internally:

- What information is sent;
- Which provider receives it;
- Where processing occurs;
- Whether data is retained;
- Whether provider personnel can access it;
- Whether the provider uses it for model training;
- Whether data is encrypted;
- Whether deletion requests can be propagated;
- Whether a data-processing agreement is in place.

The Privacy Policy should be updated if these arrangements materially change.

24. PAYMENT PROCESSORS

If you purchase a subscription, payment information may be processed by a third-party payment provider.

We generally do not need to store your full payment-card number when payment processing is handled by a third party.

Payment providers may collect and process payment information according to their own privacy policies.

25. APP STORES

If you download Medaculous through Apple App Store, Google Play, or another app marketplace, that marketplace may collect information relating to:

- Your device;
- Purchase;
- Subscription;
- Account;
- Payment;
- App installation.

Those activities may be governed by the marketplace's privacy policy.

26. ANALYTICS

We may use analytics technologies to understand how the Services are used.

Analytics may collect information such as:

- Device information;
- App version;
- Feature usage;
- Session information;
- Crash information;
- Approximate location;
- IP address or truncated IP address;
- Advertising or device identifiers, where applicable.

We will not configure analytics systems to collect health information beyond what is reasonably necessary for the relevant purpose unless permitted by applicable law.

Medaculous:

- May introduce advertising in the future.

If advertising is introduced, this Privacy Policy will be updated before or when the relevant processing begins, as required by law.

We will not represent that health information is never used for advertising unless the technical architecture actually prevents such use.

Where applicable law provides restrictions on targeted advertising or sale/sharing of personal information, we will comply with those requirements.

28. WE DO NOT SELL PERSONAL INFORMATION

Medaculous does not sell personal information for monetary consideration.

However, certain privacy laws define "sale" or "sharing" more broadly than an ordinary commercial sale.

Accordingly, our actual use of advertising technologies, analytics, data sharing, and third-party services will determine whether additional legal disclosures or opt-out rights apply.

Where required by applicable law, we will provide users with legally required opt-out mechanisms.

29. COOKIES AND SIMILAR TECHNOLOGIES

Our website may use cookies and similar technologies.

These may include:

Essential technologies

Used for:

- Authentication;
- Security;
- Account functionality;
- Session management.

Analytics technologies

Used to understand:

- Website traffic;
- Feature usage;
- Performance;
- Errors.

Preference technologies

Used to remember:

- Language;
- Settings;
- Interface preferences.

Where applicable law requires consent for non-essential cookies, we will provide an appropriate consent mechanism.

30. DO-NOT-TRACK AND GLOBAL PRIVACY CONTROL

Where required by applicable law, we will honor applicable browser or device-based privacy signals.

The technical behavior of these signals may vary depending on the jurisdiction and the technologies implemented on the Services.

31. DATA RETENTION

We retain information only for as long as reasonably necessary for the purposes described in this Privacy Policy, unless a longer period is required or permitted by law.

Retention periods may depend on:

- Type of information;
- Purpose of processing;
- Whether your account remains active;
- Legal obligations;
- Security requirements;
- Dispute resolution;
- Fraud prevention;
- Financial-record requirements.

We may retain aggregated or de-identified information for longer periods where permitted by law.

32. ACCOUNT DELETION

You may request deletion of your Medaculous account.

Account deletion may be available through:

by contacting:

talk2saadalam@gmail.com

When your account is deleted, we will take reasonable steps to delete or anonymize personal information associated with the account, subject to legal and legitimate retention requirements.

33. DELETION EXCEPTIONS

We may retain certain information after account deletion where reasonably necessary to:

- Comply with law;
- Establish or defend legal claims;
- Prevent fraud;
- Detect security incidents;
- Maintain accounting records;
- Resolve disputes;
- Enforce agreements;
- Meet regulatory requirements.

Retained information will remain subject to applicable privacy protections.

34. BACKUPS

Information may remain temporarily in encrypted or otherwise protected backup systems after deletion.

Backup copies may be retained for disaster recovery and security purposes.

Where information remains in backup systems, it will not be used for ordinary product purposes and will be deleted or overwritten according to our backup-retention schedule, subject to applicable legal requirements.

35. INTERNATIONAL DATA TRANSFERS

Medaculous may use service providers located in countries different from your country of residence.

As a result, personal information may be transferred internationally.

Where applicable law requires safeguards for international transfers, we will use legally recognized mechanisms, which may include:

- Adequacy decisions;
 - Standard Contractual Clauses;
 - Appropriate contractual safeguards;
 - Other lawful transfer mechanisms.
-

36. DATA SECURITY

We use reasonable technical and organizational safeguards appropriate to the nature of information we process.

Depending on the Services, safeguards may include:

- Encryption in transit;
- Encryption at rest where supported;
- Authentication controls;
- Access controls;
- Logging;
- Monitoring;
- Secure development practices;
- Backups;
- Incident-response procedures;
- Vendor security assessments.

No method of electronic transmission or storage can be guaranteed to be completely secure.

Therefore, we cannot guarantee absolute security.

37. EMPLOYEE AND CONTRACTOR ACCESS

Access to personal information will be restricted according to business need and applicable security controls.

Where personnel require access to information to perform their duties, access should be limited to the information reasonably necessary for that purpose.

Personnel with access to confidential information may be subject to confidentiality obligations.

38. SECURITY INCIDENTS

If we discover a security incident affecting personal information, we will investigate and take reasonable steps to contain, remediate, and prevent recurrence.

Where applicable law requires notification, we will notify affected individuals, regulators, government authorities, or other parties within the applicable legal timeframe.

Health-app-specific breach notification requirements may apply depending on the nature of the Services and information involved.

For example, the FTC's Health Breach Notification Rule can apply to certain health applications that are not subject to HIPAA.

Accordingly, Medaculous will not rely solely on a statement that it is "not HIPAA-covered" as a substitute for analyzing applicable breach-notification requirements.

39. HIPAA

Medaculous does not represent that all uses of the Services are subject to HIPAA.

Whether HIPAA applies depends on the relationship between Medaculous, the user, and any healthcare provider, health plan, healthcare clearinghouse, or other regulated entity involved.

HHS guidance recognizes that an app may or may not be a HIPAA business associate depending on whether it creates, receives, maintains, or transmits protected health information on behalf of a covered entity or business associate.

If Medaculous enters into a contractual arrangement requiring HIPAA compliance, such as a Business Associate Agreement, that agreement will govern the relevant processing to the extent of any conflict.

40. OTHER HEALTH PRIVACY LAWS

Depending on where you live and how you use Medaculous, additional privacy laws may apply.

These may include laws concerning:

- Consumer health information;
- Sensitive personal information;
- Medical information;
- Children's information;
- Biometric information;
- Genetic information;
- Data protection;
- Electronic communications.

Medaculous will comply with applicable legal requirements to the extent they apply to our Services.

41. EUROPEAN ECONOMIC AREA AND UNITED KINGDOM

If you are located in the European Economic Area or United Kingdom, additional rights may apply under applicable data-protection laws.

These may include rights to:

- Access personal information;
- Correct inaccurate information;
- Request deletion;
- Restrict processing;
- Object to processing;
- Request portability;
- Withdraw consent;
- Lodge a complaint with a supervisory authority.

Where applicable, health information may constitute a special category of personal data and require additional legal safeguards.

42. CALIFORNIA USERS

If California privacy law applies to you, you may have additional rights concerning your personal information.

Depending on the applicable law and your circumstances, these may include rights to:

- Know what personal information is collected;
- Access information;
- Delete information;
- Correct information;
- Opt out of certain forms of sale or sharing;
- Limit certain uses of sensitive personal information;
- Receive information about categories of third parties.

The precise rights available depend on the law applicable to you and whether the relevant statutory thresholds apply.

We will provide legally required California-specific disclosures and mechanisms where applicable.

43. OTHER U.S. STATE PRIVACY RIGHTS

Various U.S. states have enacted comprehensive privacy laws.

Depending on your location, you may have rights relating to:

- Access;
- Correction;
- Deletion;
- Data portability;
- Opt-out of targeted advertising;
- Opt-out of certain profiling;
- Sensitive-data processing.

Medaculous will provide applicable rights and mechanisms as required by the laws that apply to us.

44. CHILDREN'S PRIVACY

Medaculous is not intended for children under 13 years of age unless expressly stated otherwise.

Where applicable law establishes a higher minimum age for certain processing, we will follow the applicable requirement.

We do not knowingly collect personal information from children in violation of applicable law.

If you believe that a child has provided personal information to Medaculous without appropriate authorization, contact us at:

Talk2saadalam@gmail.com

We will investigate and take appropriate action where required.

45. YOUR PRIVACY RIGHTS

Depending on applicable law, you may have the right to:

- Request access to your personal information;
- Request correction;
- Request deletion;
- Request portability;
- Request restriction of processing;
- Object to certain processing;
- Withdraw consent;
- Opt out of certain marketing;
- Opt out of targeted advertising where applicable;
- Appeal certain privacy decisions;
- Lodge a complaint with a regulator.

These rights are not absolute.

For example, we may need to retain certain information to comply with legal obligations or establish or defend legal claims.

46. HOW TO EXERCISE YOUR RIGHTS

To submit a privacy request, contact:

Privacy Email: talk2saadalam@gmail.com

Subject:

Privacy Rights Request

Your request should identify:

- Your name;
- Email address associated with your account;
- Nature of your request;
- Any additional information reasonably necessary to verify your identity.

We may need to verify your identity before completing certain requests.

47. IDENTITY VERIFICATION

We may request reasonable information to verify that a privacy request was submitted by the appropriate individual.

Verification procedures will depend on the sensitivity of the request and the applicable law.

We will not request unnecessary information solely for verification.

48. AUTHORIZED AGENTS

Where required by applicable law, you may authorize another person to submit a privacy request on your behalf.

We may require evidence of authorization and may independently verify the request.

49. PRIVACY REQUEST RESPONSE TIMES

We will respond to valid privacy requests within the timeframe required by applicable law.

Where legally permitted, we may extend the response period where a request is complex or requires additional investigation.

50. MARKETING COMMUNICATIONS

You may receive service-related communications necessary to operate your account.

These may include:

- Security alerts;
- Password-reset messages;
- Subscription notices;
- Important service changes;
- Legal notices.

These communications are generally not optional because they are necessary to provide the Services.

Where applicable, you may opt out of promotional communications.

51. EMAIL PREFERENCES

If you receive promotional emails from us, you may unsubscribe using the mechanism included in the communication.

Unsubscribing from promotional communications will not necessarily stop transactional or legally required communications.

52. DATA FROM THIRD PARTIES

We may receive information from third parties such as:

- Authentication providers;
- App stores;
- Payment providers;
- Analytics providers;
- Organizations using Medaculous;
- Integration partners.

The type of information received depends on the third-party service and your choices.

53. SOCIAL LOGIN

If Medaculous permits login through a third-party identity provider, such as Google or Apple, that provider may provide information such as:

- Name;
- Email address;
- Account identifier;
- Profile information that you authorize.

The provider's own privacy policy governs its processing.

54. ORGANIZATIONAL ACCOUNTS

If you use Medaculous through a university, hospital, employer, clinic, or other organization, that organization may have administrative control over certain aspects of your account.

The organization may be able to:

- Manage your access;
- Provide or revoke access;
- Configure features;
- Receive certain usage or administrative information;
- Establish organizational policies.

Where this applies, the organization's privacy practices may also govern information it controls.

55. DE-IDENTIFIED AND AGGREGATED INFORMATION

We may create aggregated, statistical, or de-identified information from information collected through the Services.

Where legally permitted and where information has been processed so that it is no longer reasonably capable of identifying an individual, we may use such information for purposes including:

- Analytics;
- Research;
- Product development;
- Service improvement;
- Security;
- Business planning.

We will not represent information as de-identified if it remains reasonably capable of identifying an individual under applicable law.

56. RESEARCH AND PRODUCT DEVELOPMENT

Medaculous may conduct research or product-development activities involving usage data.

Where research involves identifiable or regulated health information and applicable law requires additional consent, authorization, or ethical review, we will obtain the required permissions before conducting that activity.

We will not assume that a general acceptance of this Privacy Policy constitutes consent to every form of health research.

57. DATA USED TO IMPROVE AI

Where Medaculous uses user interactions for AI or product improvement, the applicable processing will depend upon the technical architecture and legal basis for that processing.

Where required, we will provide additional notice or obtain consent.

Users should not assume that deleting a conversation necessarily means that every derivative, aggregate, security, or legally retained record is immediately deleted from every system.

58. AUTOMATED DECISION-MAKING

Medaculous may use automated systems to generate recommendations, summaries, classifications, or educational information.

These systems are not intended to make legally binding decisions about users.

Where applicable law grants rights concerning automated decision-making or profiling, Medaculous will provide those rights as required.

59. THIRD-PARTY WEBSITES

The Services may contain links to external websites.

We are not responsible for:

- Their privacy practices;
- Their security;
- Their content;
- Their cookies;
- Their data-processing practices.

You should review the privacy policy of each third-party service you use.

60. BUSINESS TRANSFERS

If Medaculous undergoes:

- Merger;
- Acquisition;

- Corporate restructuring;
- Financing;
- Sale of assets;
- Bankruptcy;
- Transfer of business;

personal information may be transferred as part of that transaction, subject to applicable law. We will take reasonable steps to ensure that applicable privacy obligations continue to apply.

61. LEGAL DISCLOSURES

We may disclose information where reasonably necessary to:

- Comply with law;
- Respond to valid legal process;
- Protect rights and property;
- Protect users;
- Investigate fraud;
- Investigate security incidents;
- Prevent abuse;
- Protect the Services.

We will limit disclosures to what we reasonably believe is legally required or appropriate for the relevant purpose.

62. LAW ENFORCEMENT

If we receive a legally valid request from law enforcement or a government authority, we may disclose information as required by law.

Where legally permitted, we may notify affected users.

We may not always be legally permitted to provide notice.

63. SECURITY AND PATIENT SAFETY

Because Medaculous may be used in clinical environments, we recognize that unauthorized access to health-related information may create risks beyond ordinary privacy concerns.

We therefore seek to apply appropriate safeguards to health-related information.

However, users remain responsible for:

- Device security;
 - Account security;
 - Appropriate patient de-identification;
 - Correct use of the application;
 - Compliance with institutional security requirements.
-

64. NO ABSOLUTE SECURITY GUARANTEE

Although we take security seriously, no technology system can guarantee absolute security.

Risks may arise from:

- Cyberattacks;
- Malware;
- Account compromise;
- Device theft;
- Phishing;
- Unauthorized credentials;
- Third-party infrastructure;
- Human error;
- Software vulnerabilities;
- Network failures.

You acknowledge these inherent risks.

65. USER RESPONSIBILITY FOR ACCOUNT SECURITY

You should:

- Use a strong password;
- Avoid sharing credentials;
- Enable available security features;
- Log out of shared devices;

- Keep your device updated;
- Protect your email account;
- Report suspected unauthorized access.

You should not store account credentials in publicly accessible locations.

66. DATA ACCURACY

You are responsible for ensuring that information you provide to Medaculous is accurate where accuracy is necessary for the relevant feature.

You may request correction of your personal information as described above.

67. CHANGES TO THIS PRIVACY POLICY

We may update this Privacy Policy periodically.

Changes may be necessary because of:

- New features;
- Changes in technology;
- New service providers;
- Changes in law;
- Changes in business practices;
- Security developments.

Where required by law, material changes will be communicated to users and additional consent will be obtained where required.

68. NO RETROACTIVE EXPANSION OF CONSENT

Where applicable law requires consent for a materially new use of personal information, we will not rely solely on your previous acceptance of this Privacy Policy as consent to that new processing.

We will provide the notice or obtain the consent required by applicable law.

69. GOVERNING LAW AND PRIVACY RIGHTS

This Privacy Policy is intended to operate consistently with applicable privacy and data-protection laws.

Where mandatory privacy legislation grants rights that conflict with this Privacy Policy, the mandatory law will prevail to the extent of the conflict.

70. COMPLAINTS

If you believe Medaculous has mishandled your personal information, contact us first:

Privacy Email: talk2saadalam@gmail.com

We will investigate complaints and respond in accordance with applicable law.

If you are located in a jurisdiction that provides a right to complain directly to a data-protection authority, you may exercise that right.

71. CONTACT US

For privacy questions, requests, complaints, or concerns:

Medaculous

72. PRIVACY POLICY ACKNOWLEDGMENT

By creating an account, you acknowledge that:

1. You have read this Privacy Policy;
2. You understand how Medaculous may process your information;
3. You understand that AI features may process information submitted to them;
4. You understand that third-party service providers may process information on Medaculous's behalf;
5. You understand that health-related information may require additional legal protections;
6. You will avoid entering identifiable patient information unless you are authorized and permitted to do so;
7. You understand that deletion may be subject to lawful retention requirements;
8. You understand that no internet-connected system can guarantee absolute security; and

9. You understand your applicable privacy rights and how to exercise them.

Where applicable law requires separate consent for particular processing activities, that consent will be requested separately.

END OF MEDACULOUS PRIVACY POLICY
